

Rick Vermeil

Software Engineer

Erie, CO | (610) 202-1418 | rickv85@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

As a former Content Marketing Manager and Product Owner, I bring a unique blend of project management, web content expertise, and Agile development leadership to the table. My background has instilled a deep sense of user empathy, which compels me to create software that is not just functional, but also highly intuitive and user-friendly. I thrive in challenging environments that encourage continuous learning and innovation.

SKILLS

Languages & Frameworks: React.js, Next.js, JavaScript, TypeScript, PHP, Liquid, CSS, Sass, Tailwind, HTML, SQL, Node.js
Systems & Practices: Software Development, Object Oriented Programming, UI/UX Development and Design, Web Development, Jest, Mocha, Cypress, Unit Testing, End to End Testing, Test Driven Development, Git, GitHub, Redux, Figma, RESTful APIs, Agile Methodologies, Continuous Integration and Deployment

PROJECTS

[SendTemps](#) | [Repo](#) | 12/2023 - Present | Solo project

Tech: Next.js, React.js TypeScript, NextAuth, Node.js, PostgreSQL, Google OAuth, Google Maps API, Vercel Storage, Git, GitHub

- ▶ Architected SendTemps, a full-stack Next.js 14 app, tailored for Colorado Front Range outdoor enthusiasts. Delivers precise NOAA forecasts for both well-known and user-created backcountry locations. Integrates Google OAuth and NextAuth for seamless user account creation and authentication, Google Maps API for user-friendly custom location creation, and a Node.js-PostgreSQL backend with comprehensive CRUD operations, complemented by user-focused error handling.

[Backcountry Bookings](#) | [Repo](#) | 4/2023 | 7-person team

Tech: React.js, TypeScript, Rails, Ruby, Sass, CSS, HTML, Cypress, Google Maps API, AWS S3 Bucket, Git, GitHub

- ▶ Led frontend development and coordinated as Product Manager on a full-stack team that built a U.S. National Park campground search and review platform, which was awarded first place in Turing's "Demo Comp" by a panel of experts in the software industry.

[Ride Ready](#) | [FE Repo](#) | [BE Repo](#) | 3/2023 - Present | Solo project

Tech: React.js, JavaScript, Cypress, OAuth2.0 API, Node.js, Express, CSP, MySQL, Heroku, Sass, CSS, HTML, Git, GitHub

- ▶ Integrated OAuth 2.0 authentication with Strava to leverage a user's ride data, enabling the precise calculation of remaining service life for mountain bike suspension in accordance with manufacturer guidelines.

PROFESSIONAL EXPERIENCE

Freelance Software Engineer - Vermeil Web Solutions LLC, Erie, CO - May 2023 to Present

- ▶ Crafted a full-stack [Next.js application](#) for Buttermilk Kitchen to survey secret shoppers about their restaurant experience, collect images from their visit, and seamlessly send the managing staff the collected data via email.
- ▶ Designed and engineered a responsive, visually appealing [portfolio website](#) for a professional photographer using Next.js, focusing on an excellent mobile display with image optimization techniques that reduced initial load time by over 500%.
- ▶ Excelled in client relations by translating complex web development concepts into understandable language, aligning technical solutions with client business goals, adhering to budget constraints, and meeting tight deadlines.

Product Owner / Content Marketing Manager - Bestop Inc., Louisville, CO - July 2020 to August 2022

- ▶ Led a team of developers as the Product Owner of a multi-brand e-commerce website development project.
- ▶ Increased project efficiency while reducing spend by over 30%.
- ▶ Managed and created all e-commerce website content via WordPress and BigCommerce.

Marketing Specialist - Bestop Inc., Louisville, CO - November 2013 to July 2020

- ▶ Coordinated and managed budgets for 80+ consumer and trade events per year.
- ▶ Planned and successfully executed a high profile trade show exhibit for five consecutive years.
- ▶ Coordinated 40+ photo and video shoots per year, creating all marketing assets for product merchandising.
